

IFT 365 – Applied Programming Language for information Technology

## **Coding Project – Flow Chart**

**Name:** Brandon Trinkle

**ASU ID:** 1217455031

**Date:** 11/2/24

**Instructions:** Use a computer application (Word, PowerPoint, graphics program, etc.) or paper/pencil to draw a flowchart (storyboard) of your application that shows the hierarchy of decisions and collection of user input for each feature or function.

Insert your Flow Chart below. You can save it as an image and insert it, or use the tools in Word to create the Flow Chart directly in this document. Images that are not clear and easy to read will lose points.
